Assignment

Final Project Ideas

In groups of two, pick one of the ideas for a final project we discussed in the lab. Brainstorm ideas for this final project and sort these in a mindmap.

After that, create a storyboard illustrating how your app is used. Bring both the mindmap and the storyboard to the lab on Friday. Be prepared to present your ideas in class.

▼❑Final Project

- ▼❑ Expense tracker
  - ❑ Take a picture of the receipt
  - ❑ Note where, what, and when you bought something
  - ❑ Maybe track warranty times
- ▼❑ GUTech App
