Media Computing Project

Jonathan Diehl
Max Möllers
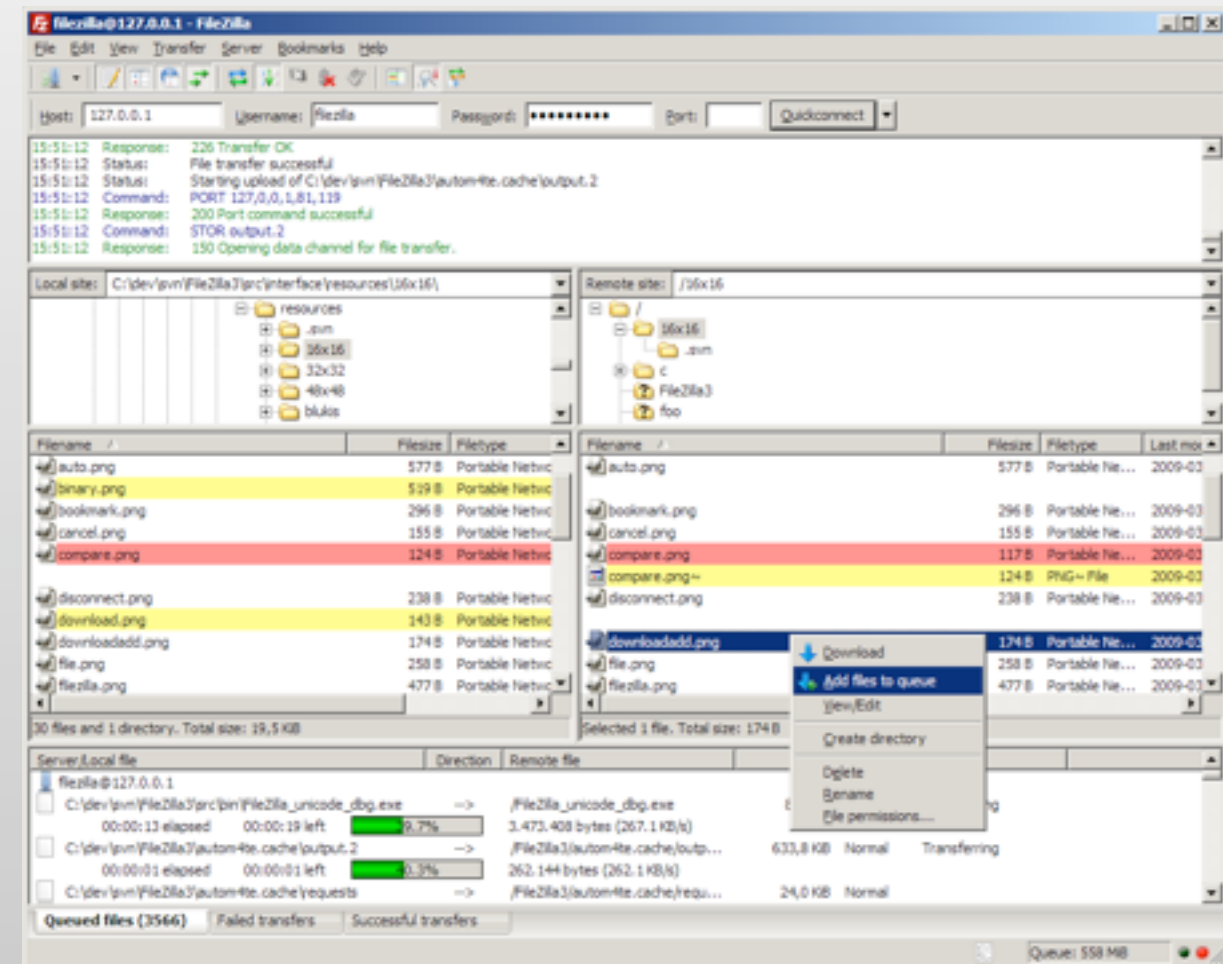

Research Theme

Redesign an existing open source application

FileZilla

- Open Source FTP-Client
- Runs on Win/Linux/Mac
- wxWidgets

MPlayer

- Open Source video player
- Runs on Win/Linux/Mac
- GTK/Cocoa

Format

- Competitive groups of 4
- iterate over several prototypes
- Flat prototype using the project's toolkit
- Final presentations on July 15th

Dienstag, 21. April 2009

Challenge

- cross platform development
- get in contact with users and real developers
- existing application, not from scratch

Dienstag, 21. April 2009

Milestones

- identify common users and task (1w)
- current workflow and design flaws (2w)
- paper prototypes (incl. evaluation) (4w)
- interactive prototype (4w)

Dienstag, 21. April 2009

Deliverables

- prototypes (40%)

- evaluation reports (25%)

- web log (15%)

- 6 page summary (10%)

- final presentation (10%)
